

Retail shrinkage

...time to adopt a new mindset?

Control of loss caused by theft, fraud and error has become a real headache on the High Street – and the problem isn't just going to disappear.

Addressing the issues effectively calls for more than just wishful thinking, it requires an appropriate communications plan that your whole organisation can understand, embrace and action.

Together we can provide a strategic consultancy service to do just that.

The ORIS Group provides the strategic consultancy that can affect culture change throughout a retail business, while on a tactical level, provide the web-based technology that delivers real time shrinkage and risk data.

From grass root store reviews to team effectiveness and performance, we can create and deliver innovative visual stimuli and content to aid and enhance awareness and understanding in all matters of shrink reduction.

To instigate a meeting of minds, please call The ORIS Group on **0870 787 1170** or email info@orisgroup.co.uk
